## FOREWORD

Rashtriya Sanskrit Sansthan was Established by the Government of India in 1970 as per the recommendations of Sanskrit Commission 1956 for the promotion and propagation of Sanskrit. Since then, for the last 4 decades, performing a leading role in the field of Sanskrit Education, the Sansthan has been successfully climbing up on the ladder of progress. Today, the Sansthan is the world's largest and India's only Multi-Campus Sanskrit University. Apart from the Sansthan Headquarters at New Delhi, the eleven campuses of the Sansthan, spread across the length and breadth of India from Kashmir in the north to Kanyakumari in the south, and from Maharashtra in the west to Tripura in the east, present a wonderful example of integration of the new approaches, new peaks and latest techniques of the modern education with the traditional Indian System of *Gurukulas*. In the last few years, the Sansthan has expanded its activities in the north-eastern states of India. The Ekalavya Campus of the Sansthan has started functioning in Agartala, Tripura with effect from the academic session 2013-14. I am happy to announce that the Sansthan has established its 12th campus namely Shri Raghunath Kirti Campus at Devabhoomi Devprayag in Uttarakhand with effect from the academic session 2016-17. Thus, the present times are times of immense and unprecedented possibilities for Sanskrit learning which exemplified in the ever-expanding activities of the Sansthan. Rashtriya Sanskrit Sansthan is progressing with new trends in the field of Sanskrit with the present need of the society.

I believe the present Edition of the Prospectus 2017-18 shall successfully highlight the activities of the Sansthan in the field of Sanskrit.

I also take this opportunity to greet the Principals, Teachers, Officers and Students of the Sansthan on the auspicious beginning of the New Academic Session.

## SHRIRAGHUNATH KIRTI CAMPUS, DEVAPRYAG (UTTARAKHAND)

### INTRODUCTION

Shri Raghunath Kirti Adarsh Sanskrit Mahavidyalaya (Estd.1908), Devaprayaga, Uttarakhand was taken over by Rashtriya Sanskrit Sansthan on 16th June, 2016 as its 13th constituent Campus. Like the former Mahavidyalaya, the campus is also named after the famous ancient deity Shri Raghunathkirti shrined in the ancient Raghunatha temple constructed in the Katyuri style of Katyuri dynasty of the mountains on the holy confluence of two important mythological rivers, namely, Bhagirathi and Alaknanda from where exactly the river Ganga is believed to be originated.

The newly established campus now functions with five departments (Vyakaran, Jyotisha, Sahitya, Veda and Nyaya) and it runs in the earlier constructed limited space of the former Mahavidyalaya.

## **VISION And ROAD MAP For the Development of Sanskrit in Ashtaadashi - Projects**

Following eighteen projects may be taken up as a special case in order to give the much required boost for the growth engine of Sanskrit. All the projects may either be directly handled by Rashtriya Sanskrit Sansthan or be given to Sanskrit related Institutions including reputed NGOs in the field of Sanskrit. Young Sanskrit scholars or retired Sanskrit scholars on contractual basis, with UGC recommended pay scales for contractual teachers or on piece work basis may be appointed for implementing the projects. Care should be taken that every appointee should have a high degree of competency, i.e. fluency and accuracy, in communicating in Simple Standard Sanskrit. Deliverables should also be well defined with time lines. These projects will help in realizing the objectives mentioned in the Terms of Reference of this committee and simultaneously will also in jobs for Sanskrit graduates.

### **1. Knowledge Texts' Translation Project**

Knowledge texts of school education to University education belonging to all branches of knowledge, Arts, Science, Commerce, Technical and Professional, available in other languages have to be translated into Sanskrit and have to be published electronically.

### **2. Editing & Publishing of Manuscripts Project**

There are 45 lakh Sanskrit manuscripts lying in more than 4000 libraries which are written in fourteen scripts. Barring the duplicate copies and published works, it is estimated that there would still be a few lakhs of unpublished manuscripts which are of not only literary value but also of contextual relevance and research value. Hence those manuscripts are to be edited and published. In order to get qualified or scholarly manuscript editors who are good in Sanskrit, training programs in editing manuscripts may be conducted in as many institutions as possible.

### **3. Digital & Online Resources Project**

All the Sanskrit works have to be brought out in Digital form and have to be made available on Net. Further various types of online courses like beginners' course, Intermediate level course, advanced course, Diploma course, UG and PG level course, language course, courses on various Shastras and Kavyas, etc have to be developed. Hundreds of such need based courses can be designed. They could be used not only by anyone from across the world who is interested in Sanskrit but also by teachers in ICT Enabled classes.

### **4. Summer Course Project**

There is considerable interest for the study Sanskrit, Grammar, Panini, different Shastras and different Sanskrit works on different subjects. Sanskrit teachers and students also want to acquire into a different branch of knowledge in Sanskrit. Hence different courses on various above mentioned subjects may be offered during summer vacation. Each Sanskrit University may identify different subject for the proposed Summer Course. Offering such courses during summer vacation would help teachers and students to take part in it.

### **5. Contemporary Literature Project**

One of the criteria of a vibrant language is the reflection of contemporary issues and thoughts of the society in its literature. Though books in Sanskrit on contemporary subjects are being published, much requires to be done in this regard. Hence through this project Sanskrit scholars have to be encouraged to write in Sanskrit on relevant current issues. Incentive grant for writing in Sanskrit and grant for publication may be given generously.

### **6. Evening School Project**

Students while perusing their main course of study during day time would pursue other course of interest in evening classes. Many people who did not get the opportunity to study Sanskrit in their school days and now who are working, would like to learn Sanskrit in evening classes. This felt need can be catered to through at

least in major centers to start with Evening schools and Evening colleges of Sanskrit which would give a great impetus to Sanskrit learning.

## **7. Technology Adaptation Project**

There are many basic technology issues like appropriate Fonts, Apps, OCR, software, search, virtual class, online management of exams, etc. related to Sanskrit usage which are hitherto solved. As new technology emerges there is need for up gradation as well. Unless Sanskrit adapts latest technologies it will not progress, hence this recommendation as Sanskrit should not miss the technology bus.

## **8. Computer Education Project**

Though it is much publicized that Sanskrit is the most suitable natural language, there is a big disconnect between computer use and Sanskrit fraternity. This is also one of the reasons for Sanskrit's lagging behind in the technology driven world. In order to impart computer education to Sanskrit teachers and Sanskrit students, such centers may be opened in Sanskrit schools and colleges either on the lines of National Council for Promotion of Urdu Language's project or through a new model. It would be more useful and effective if computer savvy Sanskrit instructors are employed in this endeavour.

## **9. Biennial Sanskrit Book Fair Project**

A World Sanskrit Book Fair was organized in 2011 in Bangalore for four days where in 154 publishers participated, four lakh people visited and total four lakh rupees' books were sold. That was unique and unparalleled. Since then there is demand from public and school managements to organize such fairs in every state capital because they do not get Sanskrit books near to their place. Sanskrit Book Publishers also want the same as it will help them to meet the demand effectively. It is desirable that Sanskrit Book Fair is held once in two years in one state capital in association with Sanskrit voluntary organizations.

## 10. Outreach Programs Project

In order to strengthen the student number in Sanskrit schools and colleges, those schools and colleges may be asked to conduct short term courses in their respective catchment areas. Further they may be given human resource support to offer various types of Sanskrit related courses for the public at different places and also to popularize Sanskrit in general schools and colleges in the nearby area.

## 11. Shabdashala Project

While Sanskrit is being widely used for communication and writing on day to day issues and modern subjects, there is dearth of modern words in Sanskrit. All the words coined by CSTT are not Sanskrit words. Though Sanskrit language can generate infinite number of words there wasn't any well coordinated collective effort from Sanskrit institutions and scholars. It is also necessary that the words so generated should be acceptable all over India and be in agreement with Simple Standard Sanskrit. Hence works classified under different categories may be entrusted to Sanskrit Universities and Sanskrit Academies or other Sanskrit Institutions and each one may appoint Sanskrit scholars from different mother tongue groups so that words so generated with different language perspectives would be acceptable all over India

## 12. Reprinting of Rare Books Project

Before independence many Oriental Research Institutes and institutions like Nirnaya Sagar Press used to publish important and valuable books without errors. Most of them are out of print now. Since such institutions do not have funds to reprint them, it is desirable that Rashtriya Sanskrit Sansthan or some other Government funded Sanskrit Institution reprint those rare books with financial support from MHRD and also create a digital version for long term preservation.

## 13. Residential Training Project

Language has to be learnt in a total environment of the language being taught, and then only then the learner will be able to acquire all the four language skills naturally

and rapidly. In order to get such skilled teachers, residential training camps of different durations at different levels may have to be organized on a large scale in all the states for teachers, students and for the public who would later volunteer to teach.

#### **14. Integrating Sanskrit with Modern Subjects Project**

Scholars having the knowledge of both Sanskrit and Modern subjects are very rare. In order to integrate the two streams on knowledge the only way out is to encourage Sanskrit people to study modern subjects or scholars in modern subjects to study Sanskrit. Fellowships may be created to UGs or PGs who have completed their one branch of study but would like to undertake the study of a subject from another stream.

#### **15. Support Internship Project**

A project may be taken up for students of IITs, NIITs, IISERs, IIITs, IISc and ACITE approved technical colleges who would opt for internship in Sanskrit Institution under the guidance of Sanskrit Professors during the course of their study through which they would also get credits. If financial support is provided to such students their talent could be utilized in unravelling the scientific knowledge hidden in Sanskrit literature through small but focused projects with Sanskrit scholars in Sanskrit institutions.

#### **16. Children's Literature Project**

Language should be learnt or taught at an early age. Today as far as other languages are concerned, a vast variety of children's literature are available in the form of multi color books, charts, CDs, rhymes, cartoons, films, documentaries, cartoon books, Amar chitra kathas, Apps, etc. Thousands of web portals and TV channels also offer such material. Sanskrit language should not miss the Children's literature bus.

### **17. Yoga through Sanskrit Project**

The language of Yoga is Sanskrit. Hence centers may be established to teach Yoga through Sanskrit and Sanskrit through Yoga. Many people are interested in studying the original texts of Yoga in Sanskrit. Hence, Sanskrit Promotion Foundation with the help of ONGC-CSR funds is in the process of developing teaching learning material for such courses. The proposed center can use that material and a person who knows both Sanskrit and Yoga may be appointed in such centers.

### **18. Ayurveda through Sanskrit**

Language of Ayurveda is Sanskrit. Ayurveda Darshana is to be studied by every one for healthy life. There is a demand for conducting Ayurveda classes through Sanskrit language. These classes are not to produce Doctors but to create healthy minds.
