Dear Prof. Shrinivasa Varakhedi,

As you may be aware, it has always been the endeavour of IIT Madras to pioneer novel strategies to disseminate information about science, technology and innovation. To this end, IIT Madras launched Shaastra, the first non-profit science and technology magazine, produced exclusively by the best science journalists in the country.

Shaastra is the only India-based science magazine that provides an India-centric view of science and technology. As a knowledge platform, it aims to fill the gap in science and technology reportage through well-researched, in-depth articles. The magazine features the best of global R&D for science enthusiasts who would like to stay abreast of the trends in the industry. The rich, robustly researched, insightful and informative content featured in Shaastra are presented by the best science writing professional journalists in the country.

Each issue of Shaastra features a several original long-form articles, interviews, guest columns by newsmakers in the field of science and technology, profiles, book reviews and is fast emerging as a one-stop platform for sound science-related information. It is a great resource for your students to stay connected to the latest trends in science, technology and innovation.

We invite your faculty and students to share their recent exciting developments in research and innovation to [editor@shaastramag.org](mailto:editor@shaastramag.org).

It would be great if you could share these details with the faculty of all departments and spread it among students to subscribe to this exciting magazine.

Dr. Shehalata Padhyaya
